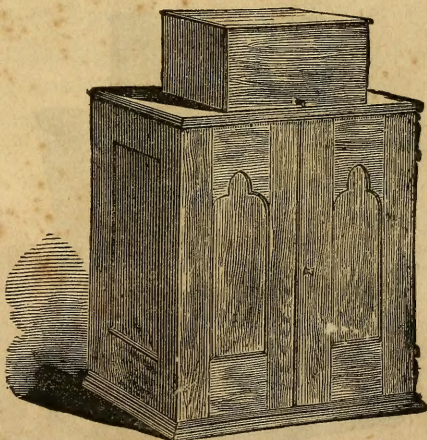

FIG. 3.

Highly Ornamented Machine, Black Walnut Folding Cover, and Drawer, extra finish,
Polished, Price £14.
The Same, in Rosewood, Price £15.

Figures 2 and 5 represent the Folding Half Case, and the Folding Cabinet Case, as they appear when open, and forming a table for the convenience of the operator. Figures 3, 4, and 6 represent the same closed, to protect the working mechanism when not in use. This most novel and ingenious arrangement—of a table and cover combined—is at once appreciated by every lady. It is in every sense both **USEFUL** and **ORNAMENTAL**.

FIG. 4.

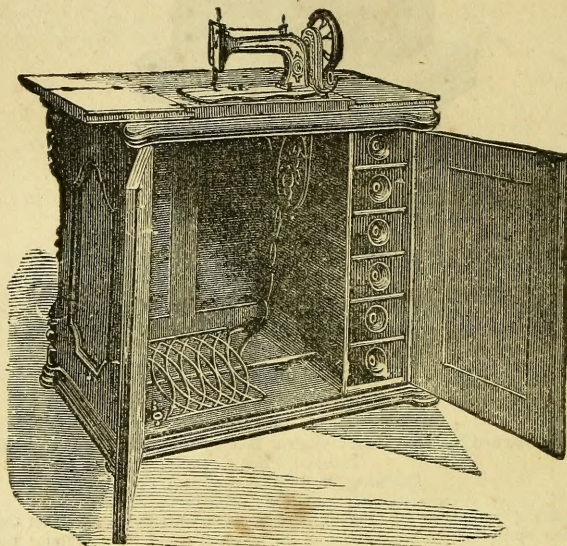

Highly Ornamented Machine, Black Walnut Cabinet Case, and Folding Cover, with
Drawers and Lock, Polished. Price £16 10s.

The Singer Manufacturing Company's Machines for Heavy Manufacturing Purposes, and for working **BUTTON HOLES**, are illustrated and described in a separate Catalogue, which will be sent Gratis and Post Free.

The Singer Manufacturing Company's New Noiseless Family Sewing Machines.

ACCESSORIES.

THE HEMMER accompanies each Machine, without extra charge. (Capable of turning any desired width of hem or fell on calico and all thin domestic goods.)

THE BRAIDER accompanies each Machine, without extra charge. (Lays a braid in ornamental patterns while stitching it to the material.)

THE STRAIGHT GUIDE accompanies each Machine, without extra charge. (Used to guide the work & stitch true and equidistant from the edge of the material.)

A set of Tools, extra Bobbins, Springs and Oiler, Bottle of Oil, with Twelve Needles accompanies each Machine, without extra charge.

Each Machine is sent out completely threaded, with Sewing Material ready for operation, with most ample Printed Directions for use.

 **PRINTED INSTRUCTIONS IN ALL FOREIGN LANGUAGES.**

THE CORDER.—For laying and stitching in cord without tacking. Is very useful for making up ladies' clothing. Price 10s.

THE EXTRA WIDE HEMMER.—For hemming towels, table cloths, napkins, or any thick goods. Price 10s.

THE BINDER.—For folding on and stitching binding to the edge of any piece of work; is entirely a new invention (*patented* recently); and is capable of folding on all widths of binding, and unsurpassed for neatness and simplicity. Is very useful to dress makers, stay makers, and every family. Price 10s.

THE MARKER is a new Patent automatic creasing gauge to attach to the machine for marking each succeeding tuck any width (while sewing). Not to be had with any other Machine. Price 8s.

THE FRILLER.—For gathering any piece of work, and stitching on a band at the same time, without tacking. Price 4s.

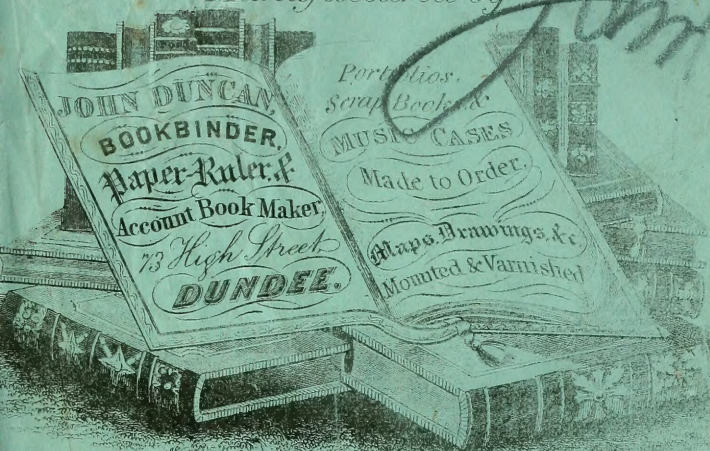

THE QUILTING GAUGE.—To attach to the Machine as a guide to stitch rows of quilting equidistant. Price 4s.

THE TRIMMER is an automatic guide for sewing on flat braid, velvet, or ribbon, to the fabric without tacking. For trimming dresses, cloaks, mantles, &c. Price 4s.

THE history of THE SINGER MANUFACTURING COMPANY'S SEWING MACHINES, affords most convincing proof of their superiority and excellence. It dates back to the earliest efforts of the human mind to design and construct the muscles of iron and steel to perform the delicate and wearisome labour hitherto done only by those of the human hand; every passing year has added one degree of success to another until over one hundred and ninety thousand have been sold, and the name of "SINGER" become a household word in every part of the world. The several styles of Machines, illustrated in the foregoing catalogue, represent the Company's latest improvements and are confidently presented to the public as incomparably the best in existence. The following are a few of their leading advantages:—

- I. They are constructed on sound mechanical principles, embracing a new under-locking thread carrier, avoiding the oiling, breaking, and looping of the thread, incident to means employed in rotary hook and other Machines.
- II. They sew with a very short and STRAIGHT NEEDLE, thus obtaining the greatest possible amount of strength, and power to pass seams and irregularities in the work, *which manifestly can never be equalled by any system using a curved needle.*
- III. They sew with two threads forming the LOCK STITCH, the only stitch that CANNOT BE RAVELLED OUT, and which presents the SAME APPEARANCE ON EACH SIDE OF THE FABRIC, *and is the only reliable stitch for general Family Sewing.*
- IV. They sew with any quality and size of cotton thread, *using the same size on both sides of the fabric*, thus avoiding the necessity and annoyance of providing different sizes and particular qualities for each different piece of work, as is the case with some Machines.
- V. They sew equally well with *coarse linen thread or the finest silk or cotton*, on heavy Pilot cloths, or the finest cambric or muslins, with perfect ease and facility of management, stitching and sewing seams of great beauty stronger than the fabric itself.
- VI. They sew at all times without a tedious course of preparation in adjustment, and what is still better THEY NEVER REQUIRE TO BE TAKEN APART TO BE CLEANED as is the case with most other Machines.

III. RATES OF POSTAGE AND CONDITIONS OF TRANSMISSION.

INLAND LETTERS.*

The rate of postage to be prepaid is one penny for every half ounce or fraction of half an ounce,† viz. :—

On a letter not exceeding $\frac{1}{2}$ oz.	-	-	1d.
„ „ above $\frac{1}{2}$ oz. and not exceeding 1 oz.			2d.
„ „ „ 1 oz.	„	„	$1\frac{1}{2}$ oz. 3d. and so on.

As a general rule, the postage, if not paid in advance, is double the foregoing; and if the payment in advance be insufficient, double the deficiency is charged. An inland letter, for example, weighing more than half an ounce, and not exceeding one ounce, if bearing a penny stamp only, is, on delivery, charged twopence. On re-directed letters, however, the charge for re-direction is the same whether prepaid or collected on delivery (see page 77).

COLONIAL AND FOREIGN LETTERS.

The rates of postage on letters to the colonies and foreign countries are entered in the table of Colonial and Foreign Postage at page 66.

ADDRESSES TO THE QUEEN AND PETITIONS TO PARLIAMENT.

Petitions and addresses to Her Majesty, forwarded direct, are exempt from postage; and such petitions and addresses, as also petitions to either House of Parliament, if sent to a member of either House, are likewise exempt, provided they do not weigh more than two pounds, and are either without covers or are in covers open at the sides. No letter or other enclosure, however, must be inserted; and if one be found, such enclosure, unless it bear the proper number of postage stamps, will be charged as an unpaid letter.

NEWSPAPERS AND OTHER PERIODICALS BEARING THE NEWSPAPER STAMP.

Although provision is made for forwarding newspapers, books, and money through the post, no one is compelled so to forward these articles; the exclusive privilege of the Post Office extending only to letters.

All periodicals, including newspapers, published in the United Kingdom, at intervals not exceeding thirty-one days, and which bear an impressed stamp or stamps denoting the stamp duty (of the kind formerly confined chiefly to newspapers), may, under the following regulations, be sent and re-sent through the post, within the United Kingdom, free of postage :—

* Inland Letters are those which pass between places in the United Kingdom, including the Isle of Man, the Orkney, Shetland, Scilly, and Channel Islands.

† If the weight be exceeded to the smallest extent, even though the balance be merely turned, the letter becomes liable to a higher postage. The same rule applies to letters going abroad. To provide, therefore, for errors in scales, &c., it is well to allow a little margin, or to pay the postage of the next greater weight.

1st. Such publications are subject to the same restrictions as to the number of sheets and superficial extent as were formerly applicable only to newspapers properly so called. These restrictions are shown in the following table:—

Amount of Stamps impressed on the Publication.	Maximum Number of Sheets.	Maximum Superficial Extent of Letter-press on One Side.
One Penny	Two (one of them being a supplement)	2,295 inches.
Three Halfpence	Three (two of them being supplements)	3,443 "
Two Pence	Three (two of them being supplements)	4,590 "

2d. No publication, or portion thereof, can pass through the post unless the impressed stamp which it bears be a stamp of the value at least of one penny.

3d. The title and date of the publication must be printed at the top of every page.

4th. The publication must be folded in such a manner that the whole of the stamp or stamps, denoting the full duty, shall be exposed to view, and be distinctly visible on the outside; except that where there are more than two publications in the same cover it is considered sufficient if the stamps be so arranged that they can readily be examined. If this rule be infringed a postage of one penny will be charged in addition to any other postage to which the publication, if properly folded, would be liable.

5th. The publication must not be printed on pasteboard or cardboard, or on two or more thicknesses of paper pasted together; nor must any pasteboard, cardboard, or such pasted paper be sent with it as a back or cover thereto, or otherwise.

6th. It must be posted within 15 days from the printed date of issue.

7th. It must have either no cover or a cover open at the ends: otherwise it will be charged as an unpaid letter.

8th. It must not contain any enclosure. If it do, the enclosure will be taken out and charged as an unpaid letter, together with an additional rate of one penny.

9th. It must have no writing or other mark thereon but the name and address of the person to whom it is sent; nor anything on the cover but such name and address, the printed title of the publication, and the printed name and address of the publisher or vendor who sends it. Thus if a newspaper, franked by a newspaper stamp, after having had the address of one person written upon the paper itself, be sent to another person, the first address must be cut off; obliteration not being sufficient. For any breach of this rule an additional postage of 2d will be charged.

10th. If the publication be addressed to any person within the free delivery of the place where it is posted, it becomes liable to a postage of 1d, which must be prepaid by affixing a postage stamp. If this be not done, an additional postage of 2d is charged.

11th. If the 1st, 2d, 3d, 5th, or 6th regulations be infringed, the publication will be charged as an unpaid book-packet, with the double book postage.

- 12th. It is suggested that every publication should have a notice to purchasers conspicuously printed, pointing out the necessity of exposing the stamp or stamps to view whenever the publication is sent through the post.
- 13th. Stamped publications can also be forwarded under the regulations of the Book Post; but when so sent the impressed stamp does not count as any part of the postage.

NEWSPAPERS SENT ABROAD.

The Colonial and Foreign newspaper rates are set forth in the Table of Colonial and Foreign Postage, commencing at page 66, and are applicable only to such publications as have been registered at the General Post Office for transmission abroad. These publications are subject to the restrictions contained in the 3d, 5th, 6th, 7th, 8th, and 9th of the foregoing regulations. *The postage must be prepaid in postage labels.* An impressed stamp on a newspaper addressed to a place abroad does not count as any part of the postage.* The publications sent abroad under these arrangements are newspapers, magazines, prices current, market reports, &c., published at intervals not exceeding thirty-one days. When the privilege of transmission abroad is desired for a publication, the publisher should make application to the Secretary of the Post Office, sending a copy of the publication. Unregistered periodicals, whether newspapers or other, cannot be sent abroad at any rates lower than those applicable to books, &c.

PARLIAMENTARY PROCEEDINGS.

Printed proceedings of the Imperial Parliament, sent without covers, or in covers open at the ends, may circulate within the United Kingdom at the rate of one penny for every quarter of a pound or fraction of a quarter of a pound.

The words Parliamentary Proceedings must be written or printed on the cover of the packet: otherwise, it is treated as an ordinary Book Packet.

Prepayment, when the circulation is within the United Kingdom, is optional; and if it be made in part, the simple difference only is charged.

Parliamentary proceedings may be sent, under the Book Post privilege, to all the Colonies, and to those Foreign States between which and this country there is a book post.

INLAND BOOK POST.

The following are the regulations of the Inland Book Post:—

- 1st. The postage is 1d for every quarter of a pound or fraction of a quarter of a pound.
- 2d. The postage must be prepaid by means of postage stamps affixed outside the packet or its cover. If the whole postage be not thus prepaid the packet is treated in the manner described in Section 9.
- 3d. Every packet must be sent either without a cover, or in a cover open at the ends or sides; so as to admit of the enclosures being removed for examination. For the greater security of its

* Newspapers posted unpaid are retained at the Returned Letter Office for one week, and then, if the postage still remain unpaid, are destroyed.

contents, the packet may be tied at the ends with string ; but in such case, the Postmaster is authorized to cut the string, although if he do so he must again tie up the packet.

- 4th. A book-packet may contain any number of separate books or other publications, (including printed or lithographed letters), photographs (when not on glass or in cases containing glass), prints, or maps, and any quantity of paper, parchment, or vellum ; and the books or other publications, prints, maps, &c., may be either printed, written, engraved, lithographed, or plain, or any mixture of these. No other material is allowed than paper, parchment, or vellum, except in the case of printed books or publications commonly called "indestructible," artistic prints and maps, architectural drawings, plans, and tracings, which may be printed or written upon canvas or cloth. Further, all legitimate binding, mounting, or covering of a book, &c., or of a portion thereof, is allowed, whether such binding, &c., be loose or attached ; as also rollers in the case of prints or maps, markers (whether of paper or otherwise) in the case of books, and, in short, whatever is necessary for the safe transmission of such articles, or usually appertains thereto ; but the binding, &c. must not be sent as a separate packet, nor can patterns, or books of patterns (unless these consist merely of *paper*) be permitted.
- 5th. No book packet may contain anything which is sealed or otherwise closed against inspection ; nor must there be any letter, nor any communication of the nature of a letter, whether separate or otherwise, unless the whole of such letter or communication be printed. Entries, however, merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter. Indeed as respects the name and address of the sender, writing is not only permitted, but recommended ; so that if the cover come off, or for any other reason the packet cannot be forwarded, it may be returned.
- 6th. No book packet must exceed two feet in length, or one foot in width, or depth ; and if any packet of greater dimensions be presented at a post office it cannot be received.
- 7th. Any packet which is not open at the ends or sides, or has any letter or communication of the nature of a letter written in it, or upon its cover, is charged with the "unpaid" letter postage.
- 8th. If a packet be found to contain any letter not wholly printed, whether closed or open, or any enclosure sealed or otherwise closed against inspection, or any other unauthorized enclosure, the letter or enclosure is taken out and forwarded to the address on the packet, charged with the full postage, as an unpaid letter, together with an additional rate ; and the remainder of the packet, if duly prepaid with stamps, is then forwarded to its address.
- 9th. If a packet be not sufficiently prepaid with stamps, but nevertheless bear a stamp of the value of one rate, it is forwarded, charged with the deficient book postage, together with an additional rate ; but any packet which bears no postage stamp is charged with double the book postage.
- 10th. In every case in which the postage chargeable under these regulations is greater than the letter rate, the latter postage is substituted.

COLONIAL AND FOREIGN BOOK POST.

Except that the rates of postage are higher, books can be sent to all British colonies, and to those foreign countries indicated in the table of Colonial and Foreign Postage at page 66, on the same conditions as those of the Inland Book Post.

INLAND PATTERN POST.

The following are the rules of the Inland Pattern and Sample Post:—

- 1st. The postage is 2d for every quarter of a pound or fraction of a quarter of a pound.
- 2d. No packet of patterns or samples must exceed 24 oz. in weight. Any packet above that weight is sent to the Returned Letter Branch.
- 3d. The postage must be prepaid by means of postage stamps.
- 4th. There must be no writing or printing on the packet or its cover in addition to the address of the person for whom the packet is intended, except the address of the sender, a trade mark and numbers, and the prices of the articles: otherwise, the packet is treated as a letter.
- 5th. There must be no enclosure other than the samples themselves. The particulars, which are allowed to be furnished under the preceding rule, must in all cases be given, not on loose pieces of paper, but on small labels attached to the samples or the bags containing them. Any loose enclosure is taken out and forwarded to the address on the packet, charged with the full postage as an unpaid letter, together with an additional rate of a penny.
- 6th. The patterns or samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, &c., may be enclosed in boxes, or in bags of linen, or other material, fastened in such a manner that they may be readily opened; or in bags entirely closed, provided that they are transparent, so that the Officers of the Department may be able to satisfy themselves as to the nature of the contents. If this rule be infringed, the packet is treated as a letter.
- 7th. If a packet of patterns or samples be posted altogether unpaid, it is charged with double the postage which should have been prepaid. If a portion of the postage be prepaid, even although only a penny stamp be affixed, the packet is charged with the amount of the deficiency, together with an additional rate of two-pence.
- 8th. When, owing to a great and unusual influx of letters, books, &c., the transmission or delivery of the letters would be delayed if the whole mail were dealt with without distinction, a Head Postmaster may keep back sample packets until the next despatch or delivery; but he must on no account detain them, except in the case specified, or beyond the time named.
- 9th. The rule, which forbids the transmission through the post of any article which might injure the contents of the mail bags or the Officers of the Post Office, is so far relaxed as to permit the transmission of scissors, knives, razors, forks, steel pens, nails, keys, watch machinery, metal tubing, pieces of metal or ore, and such like, as samples, provided that they be packed and guarded

in so secure a manner as to afford complete protection to the contents of the mail bags and the Officers of the Post Office, while at the same time the samples may be easily examined. If any packet containing such articles as these be posted, which is found not to be sufficiently guarded, it is stopped, and a notice of its detention is sent to the person to whom it is addressed, or to the sender, who may then obtain it upon personal application; but the packet is charged with a fine equal in amount to the postage to which it was liable as a packet of patterns.

10th. In every case in which the postage chargeable under these regulations is greater than the letter rate, the latter postage is substituted.

COLONIAL AND FOREIGN PATTERN AND SAMPLE POST.

Patterns and samples can be sent at the rates inserted in the Table of Colonial and Foreign Postage to such colonies and foreign countries as are marked in that Table with the letter "P." The conditions in these cases are for the most part the same as in the case of the Inland Pattern and Sample Post, the following being the only important exceptions:—

1st. The limit of 24 oz. in weight is not applicable to patterns sent to the colonies or to foreign countries.

2d. A packet of patterns or samples sent to Portugal, Madeira, the Azores, Cape de Verds, France, or to Turkey, Syria, or Egypt, by French packet, must not exceed 18 inches in length, width, or depth; a packet to any other place abroad must not exceed 24 inches in length or 12 inches in breadth or depth.

3d. A packet of patterns or samples sent to Germany, Russia, Belgium, Turkey, Moldavia, Wallachia, &c., *viâ* Belgium, or to any place *viâ* Austria, must not exceed 8 ounces in weight, and the weight of a packet for Portugal, Madeira, the Azores, or Cape de Verds, is limited to one pound.

4th. None of the articles named in rule 9, above, may be sent as patterns or samples to any place abroad, except the United States of America, Germany, Belgium, Holland, Denmark, Sweden, Norway, Turkey, Moldavia, Wallachia, Portugal, Madeira, the Azores, Cape de Verds, Switzerland, and the British Colonies, and not to these places when addressed "*viâ* France."

5th. Bags entirely closed, even though they be transparent, must not be used for the transmission of seeds to any foreign country except the United States of America, Holland and its possessions, Belgium, Denmark, Portugal and its possessions, and Austria (*viâ* France); and samples of intrinsic value must not be sent to foreign countries except the United States.

V. REGISTRATION.

By the prepayment of a fee of 4d. any letter, newspaper, book, or other packet on which the postage has been prepaid in stamps, may be registered to any place in the United Kingdom, the British Colonies, the United States of America, Italy, or the German States. To other Foreign Countries (with a few exceptions where there is no arrangement whatever for registration), only letters and packets prepaid at the letter rates can be registered.

The registration of a packet makes its transmission much more secure; and the loss of a registered packet is a very rare occurrence.

Nevertheless, by Act of Parliament, the Post Office is not responsible for the safe delivery of registered packets, though any officer who may neglect his duty on this point will be called to strict account. Sent in *unregistered* letters, valuable articles are exposed to risk; and the department cannot in any way undertake the safe conveyance of such packets. All inland or colonial letters, therefore, which unquestionably contain coin, even though they be posted without registration, are treated as registered, and charged on delivery with a double registration fee of eightpence in addition to the ordinary postage; and any such letters which cannot be registered in time to be forwarded by the Mail for which they are posted are detained for the next despatch.

Every letter to be registered should be presented at the counter, and a receipt obtained for it, and should on no account be dropped into the letter-box. If, contrary to this rule, a letter marked "Registered" be dropped into the letter-box, it will, *if directed to any place in the United Kingdom or the British Colonies*, be liable to a registration fee of eightpence, instead of the ordinary fee of fourpence.

At all Post Offices, the latest time for posting registered letters on the payment of the ordinary fee is entered in the notice exhibited in the Office window; but, upon payment of a late fee of fourpence, in addition to the ordinary registration fee, letters, whether inland, foreign, or colonial, may be registered after the hours specified, until the closing of the letter-box for each despatch (exclusive of the time during which late letters are received), or until the office is closed for the night.

DELIVERY.

Letter Carriers and Rural Messengers are prohibited from distributing any letters, newspapers, &c., whether before beginning their rounds, whilst on their rounds, or after they may have completed them, except such as have passed through a Post Office. Nor are they allowed to receive any payment beyond the postage for the delivery or collection of any letter or newspaper, nor to deviate from the route laid down for them. The prohibition, however, from receiving payment in addition to the postage, does not extend to Christmas gratuities.

No person living within the town free delivery, or within the limits of a rural post free delivery, unless he rent a private box, can claim to have his letters delivered at the office window if a delivery by Letter Carrier or a despatch by messenger is about to take place; but letters which arrive by a mail, after which there is no immediate delivery by Letter Carrier or messenger, may be obtained by any person on application at the office window, so long as the office is open for delivery.

In order to prevent the additional trouble which is sometimes caused by letters being directed to a Post Office, although for persons residing within a free delivery from such office but who have no private box, a Postmaster is authorized, when such letters arrive by a mail for which there is a delivery from house to house, to refuse to deliver them at the window (even though initials may be substituted for the name) and to send them out by the Letter Carriers; except such as are addressed to the military in barracks.

Any person can have a private box who is willing to pay the

appointed fee. Where this fee goes to the Revenue, it is generally fixed at one guinea per annum to be paid in advance; and where it goes to the Postmaster, he may demand the same terms, though he may, at his option, take less. The same also, in most cases, are the terms for a private bag, except that, in addition, there is the cost of the bag itself, and a charge for conveyance, the maximum of the latter being half-a-guinea per annum, if the bag be conveyed by a Rural Messenger, and two guineas if by a contractor for a mail cart or other horse post. The weight of a private bag, when empty, is limited to one pound. As the service of a private bag may possibly delay the despatch of the general bag, none are allowed without the permission of the Surveyor.

MONEY ORDERS.

The public are recommended, when applying for Money Orders, to use printed "Application Forms," which save time, and afford greater security than verbal messages, against mistakes. These Forms are supplied gratuitously at all Money Order Offices. The Commission on Inland Money Orders is—

On sums not exceeding £2,.....				3d.
Above £2 and	"	"	£5,.....	6d.
"	£5	"	"	£7,.....
"	£7	"	"	£10,.....
"	£7	"	"	1/.

No order is allowed to contain a fractional part of a penny.

With the subjoined exceptions, no Money Order can be issued, unless the applicant furnish, in full, the surname and at least the initial of one Christian name, both of the remitter and the payee, together with the remitter's address:—

1st. If the remitter or payee be a peer or a bishop, his ordinary title is sufficient; and the usual designation of a firm is sufficient, except in the case of a company trading under a title which does not consist of the names of the persons composing it, as the "Carron Company."

2d. When the remitter notifies that the order is to be paid through a Bank, it is left to his option to give or withhold the name of the payee.

When application is made for a Money Order payable in London, or at any other town where there is more than one Money Order Office, the remitter should say at which of such offices he wishes it to be paid: otherwise the order can be cashed at the Head Office alone. It is not incumbent on a Postmaster to supply such information relative to local or provincial offices, but the nearest Money Order Office to any street in London may be ascertained by referring to the Street List, which can be seen at any Money Order Office.

An order once issued cannot be cancelled; and should repayment or transfer to a different office or alteration of name be required, the remitter must apply to the paying Postmaster according to the directions printed on the back of the order.

In order to enable the remitter to obtain an acknowledgment of the receipt of a Money Order before the money is paid, it is arranged that he may make his order payable ten days after date, provided that, in the presence of the Postmaster when he obtains the order, he affix thereto, in the space after the request C., a penny receipt stamp, and write his signature across the stamp.

When an order is presented for payment (otherwise than through a bank) the Postmaster has first to see that the signature of the payee be as full as the name given in the advice, and be not in any way inconsistent therewith. He has then to call on the applicant to give the name of the remitter, and if the reply be correct, the order will be paid, unless the Postmaster have good reason for believing that the applicant is neither the rightful claimant, nor deputed by him. When an order is paid through a bank it is sufficient that it be receipted (without regard to any discrepancy between the signature and the name in the advice, or to whether the receipt is given by the payee himself or by another person), and that it be presented (crossed with the name of the receiving bank) by some person known to be in the employment of the bank.

The holder of a Money Order is always at liberty to direct, by crossing it, that the order be paid through a bank, even though its payment was not originally so restricted; and when the order is thus crossed, the question put on the presentation of an ordinary Money Order is dispensed with.

Money Orders do not require a receipt stamp.

Payment of an order, issued and payable in the United Kingdom, must be obtained before the end of the second calendar month after that in which it was issued (for instance, if issued in January it must be paid before the end of March), otherwise the order becomes lapsed, and a new order is necessary, for which a second commission is charged. The period for payment of orders issued in the United Kingdom, and payable in any colony authorized to transact Money Order business, including Gibraltar and Malta, is six months; and orders granted at those places on the United Kingdom are also payable during six months after that in which they were issued. A person presenting a lapsed order is furnished with a copy of a printed notice, headed "Lapsed Money Orders," containing directions how to proceed. If the order be not paid before the end of the twelfth calendar month after that in which it was issued (for instance, if issued in January, and not paid before the end of next January), all claim to the money is lost.

No application can be entertained for compensation for alleged injury from the nonpayment of a Money Order at the expected time.

After once paying a Money Order, by whomsoever presented, the Office is not liable to any further claim.

To guard against any person, even if he obtain possession of a Money Order, fraudulently getting it cashed, the remitter is recommended,—

- 1st. When he is well known to the payee, to sign the letter enclosing the Order with his initials only.
- 2nd. When this is not the case, either to make the order payable ten days after date, or to register the letter enclosing it, or to make the order payable through a bank.
- 3rd. When it is not considered expedient to adopt either of these courses, to send the remitter's name (without a knowledge of which payment cannot be obtained) in a separate letter from that containing the Money Order; although this latter precaution is much less effective than either of the others.

Payment of an order cannot be demanded on the same day as that on which the order was issued.

In case of the miscarriage or loss of an Inland Money Order, a duplicate is granted on a written application (with necessary particulars, and enclosing the amount of a second commission, in postage stamps) to the Controller of the Money Order Office of England, Scotland, or Ireland, as the case may be, where the original order was *issued*; and if it be desired to stop payment of an inland order, a similar application, with a like enclosure of postage stamps, must be made to the Controller of the Money Order Office of that part of the kingdom in which the order is *payable*. If alteration in the name of the payee or remitter of an Inland Money Order should be required, application must be made by the remitter to the Postmaster of the office at which the order was issued, and a second commission must be paid. Should transfer of payment of an inland order from one office to another in the United Kingdom, or repayment of the amount of an order, be required, an application enclosing the order must be made to the Postmaster at whose office the order is payable, who will transmit in exchange a new order payable at the place desired, but for a less sum than the original order by the amount of the second commission charged for the re-issue. Proper printed forms for making applications in all these cases may be obtained at any Money Order Office, and full instructions on the subject will be found printed at the back of the Money Order. Whenever, on complaint being made, it is found that the necessity for an application, entailing the payment of a fresh commission, is attributable to the Post Office, the charge will be remitted to the applicant and imposed on the officer in fault.

A Postmaster is required to give information how to apply for a duplicate order, &c., and must furnish the prescribed form of application. If payment of an Order be refused, in consequence of the replies to the questions respecting the remitter not corresponding with the entries in the advice, or of a difference in the name in the receipt, the applicant for payment should communicate with the remitter, and request him to apply personally to the issuing Postmaster.

No Letter Carrier, Rural Messenger, or other Servant of the Post Office is bound to procure a Money Order for any person, or to obtain payment for one; but such services are not forbidden.

Money Orders are issued at all Money Order Offices in the United Kingdom of Great Britain and Ireland on SWITZERLAND at the rate of commission charged on Inland Money Orders, on Money Order Offices in ALEXANDRIA, BAHIA, BUENOS AYRES, CONSTANTINOPLE, GIBRALTAR, HONG KONG, MALTA, MONTE VIDEO, PERNAMBUCO, RIO JANEIRO, SHANGHAI, SUEZ, and YOKOHAMA, at a charge equal to threefold the commission on Inland Money Orders, and on Money Order Offices in the subjoined list at a charge equal to fourfold such commission:—BRITISH GUIANA, CANADA, CAPE OF GOOD HOPE, FALKLAND ISLANDS, HONDURAS, NATAL, NEW BRUNSWICK, NEWFOUNDLAND, NEW SOUTH WALES, NEW ZEALAND, NOVA SCOTIA, PRINCE EDWARD ISLAND, QUEENSLAND, ST HELENA, SOUTH AUSTRALIA, TASMANIA, VICTORIA, WEST COAST OF AFRICA, WEST INDIES, WESTERN AUSTRALIA.

EXPLANATIONS RELATIVE TO THE FOREGOING TABLE, AND MISCELLANEOUS REGULATIONS.

When a letter addressed to go by a route that requires Prepayment, is posted unpaid, and there is some other route where Prepayment is not required, it is forwarded by that route; but if there be none, it is sent to the Returned Letter Office, to go back to the writer.

The letter *a* prefixed to any division shows that the postage there entered does not carry the letter from the place where it is posted in the United Kingdom entirely free to its place of destination, but that it is liable to an *additional* charge upon delivery.

To those Countries mentioned in the Table of Colonial and Foreign Postage, to which a * is prefixed, no packet of patterns must exceed 8 ounces.

No Book Packet or Packet of Patterns can be forwarded to India above five pounds in weight, or to New South Wales or Queensland above three pounds in weight.

Book Packets for China can be sent to Amoy, Canton, Foo Chow Foo, Hong Kong, Ningpo, Shanghai, Swatow, and Whampoa only.

Water Colour Drawings are not allowed to be sent in a Book Packet to France or Algeria, and no Packet may exceed 18 inches in width, depth, or length.

Books sent to Spain, the Balearic, or Canary Islands must be unbound; and no prints, music, maps, or drawings are allowed, unless they form part of the publication with which they are sent. Books sent to the Papal States must also be unbound. The laws of Spain forbid the transmission by the post within that country of letters or other packets containing watches, jewelry, or other articles of value, which are liable to Customs duties. Any such packets, therefore, which may be forwarded in the mails to Spain will not be delivered, but will be sent back from the frontier.

Periodicals not of daily publication, issued in the shape of pamphlets, may be sent to Holland, via Belgium and by private ship at the following rates:—Not exceeding 2 oz., 1d; above 2 oz. but not exceeding 3 oz., 6d; above 3 oz. but not exceeding 4 oz., 8d; with an addition of 2d for every additional ounce up to 16 ounces, above which weight the privilege does not extend. At the same rate of postage, Parliamentary Proceedings may be sent without limit of weight. This postage is only the British portion, a further sum being charged on delivery. The periodical works must always be sent in a cover open at the ends (not more than one being sent in a single cover), and the postage must be prepaid. Other printed papers or books (except those specified above), are liable to letter rate of postage. There must be no writing, or other marks upon such periodical works, &c., or upon the covers, except the names and addresses of the persons to whom they are sent; nor upon the covers must there be any printing except the names and addresses of the persons to whom they are sent, and the names and addresses of the senders. Any other writing, &c., will render the packets liable to letter rates of postage.

**LETTERS FOR OFFICERS, NON-COMMISSIONED OFFICERS, SOLDIERS, AND SEAMEN,
IN HER MAJESTY'S SERVICE, SERVING ABROAD.**

Non-commissioned officers, soldiers, and seamen, in Her Majesty's Service, whether serving on sea or land, or in a British Possession or Foreign Country, as also enrolled pensioners in Canada, can send and receive letters by Packet or Man-of-War, for a postage of a 1d, which must be prepaid; but if any such letters have to pass through a Foreign Country, they are subject, in addition, to the Foreign postage, whatever that may be.

Letters addressed to, or sent, by a commissioned officer, in the Navy or in the Royal Marines, or a warrant officer, employed on board any of Her Majesty's Ships on a Colonial or Foreign Station, are subject to a uniform British rate of 6d per half-ounce each, which must be paid in advance; but, if any such letters have to pass through a Foreign Country, they are also subject to the Foreign postage, in addition to the British rate of 6d.

The following table shows the combined British and Foreign postage on letters sent to or received from officers, non-commissioned officers, soldiers, &c., serving abroad:—

To or from—	COMMISSIONED OFFICERS.		NON-COMMISSIONED OFFICERS & PRIVATES.	
	Not Exceeding $\frac{1}{4}$ oz.	Not Exceeding $\frac{1}{2}$ oz.	Not Exceeding $\frac{1}{4}$ oz.	Not Exceeding $\frac{1}{2}$ oz.
China, Ceylon, Mauritius, } India, Japan, or Australia, <i>via Marseilles</i> }		0s 10d		0s 5d
Malta, <i>via France</i>	0s 6d	1s 0d	0s 4d	0s 7d
Chili, Peru, or any other } place in the Pacific, <i>via</i> } <i>Panama</i>		0s 7d		0s 2d
Vancouver's Island or } British Columbia, <i>via</i> } <i>New York</i>		0s 7d		0s 2d
Canada, <i>via United States</i> ...		0s 7d		0s 2d
Brazil, <i>by French Packet</i>	0s 8d	1s 4d		

The Person claiming the privilege must at the time be actually employed in the service of Her Majesty.

If the Letter be posted within the United Kingdom, the postage must be prepaid, as must any foreign postage that may be chargeable.

The Letter must not weigh more than half an ounce.

It must relate entirely to the private concerns of the soldier or seaman.

The name of the soldier or seaman, with his class or description, must appear in the direction, and the officer having the command must sign his name, and specify the ship, or regiment, corps, or detachment to which the soldier or seaman belongs; the name of the ship or regiment being entered in full.

According to the regulations of the German Postal Union, no letter exceeding 50 grammes (a little more than $1\frac{1}{2}$ oz.) in weight, and containing any other enclosure than paper, can be allowed to circulate by the post. Any letters, therefore, forwarded in the Mail to Prussia above that weight, and containing any other enclosure than paper, will be liable, on the arrival at the Prussian frontier, to be stopped, and sent to the Custom House for delivery as *freight*.

Letters intended to be sent by Private Ship must be addressed "By Private Ship;" and if by a particular vessel, the name of the ship must be added. The postage of a Letter by a Private Ship to Belgium, Belize, and the British West Indies is $3d$ not exceeding $\frac{1}{2}$ oz.; to the Cape of Good Hope, Natal, St Helena, and Ascension, the postage is $4d$ not exceeding $\frac{1}{2}$ oz.; to France $4d$ the $\frac{1}{2}$ oz.; to Norway, and Holland, $8d$ the $\frac{1}{2}$ oz.; in all other cases the single rate is $6d$.

The practice of sealing letters passing to and from the *East* and *West Indies*, and other countries with hot climates, with wax (except such as is specially prepared), is attended with much inconvenience, and frequently with serious injury, not only to the Letters so sealed, but to the other Letters in the Mail, from the melting of the wax and adhesion of the Letters to each other. The public are therefore recommended in all such cases to use either wafers or gum, and to advise their correspondents in the countries referred to, to do the same.

The Post Office is not responsible for any injury which books or other articles forwarded by post may sustain; and the public, therefore, should not employ the Post Office for the conveyance of anything likely to suffer injury, unless such things be sufficiently protected. Neither is the Post Office responsible for any loss or inconvenience which may arise from the mis-sending, mis-delivery, loss, &c. of a letter or any other postal packet.

With the following exceptions, no Inland or Foreign letter or packet can be forwarded by the post which is more than two feet in length, or one foot in breadth or depth. The exceptions are:—

- 1st. Packets to or from any of the Government Offices or departments, or Public Officers.
- 2nd. Petitions or addresses to the Queen, whether directed to Her Majesty, or forwarded to any member of either House of Parliament.
- 3rd. Petitions to either House of Parliament, forwarded to any member of either House.
- 4th. Printed Parliamentary proceedings.

No information can be given respecting letters which pass through a Post Office except to the persons to whom they are addressed, nor can the address of any private person be given; and in no other way is official information of a private character allowed to be made public.

Postmasters are not allowed to return any letter or other packet to the writer or sender, or to any one else, or to delay forwarding it to its destination according to the address, even though a request to such effect be written thereon.

Except where the Surveyor may deem a longer interval necessary,

late letters*, &c. are received till within five minutes of the despatch of the mails; although no office is kept open merely for this purpose after ten o'clock at night.

No late letters, &c. (except Government letters) are forwarded by the mail preparing for despatch unless prepaid, and that by stamps, so as to include both the ordinary postage and the late letter fee; but in the case of letters directed to any department of Government, it is sufficient to prepay the fee.

With the exception of Government letters, and letters not exceeding half an ounce in weight, addressed to non-commissioned officers and private soldiers in the army, or seamen belonging to Her Majesty ships, every re-directed letter or other postal packet is liable to an additional postage (at the prepaid rate) for each re-direction unless the re-direction be made by an Officer of the Post Office, to a place within the same free delivery as the last address. Thus, on a paid or unpaid letter weighing not more than half an ounce, re-directed either by an Officer of the Post Office or by any one else to a different postal district in the United Kingdom, or from one place to another in the same postal district, provided these places be not in the same free delivery, an additional postage is levied of one penny; or, if the weight be more than half an ounce but does not exceed an ounce, of twopence; and so on. Upon a book thus re-directed to any other postal delivery in the United Kingdom, and weighing not more than four ounces, an additional postage of one penny is levied, or, if the book weigh more than four ounces, but not more than eight ounces, an additional postage of twopence; and so on.

A registered letter when re-directed is only liable to the same additional charge as an ordinary re-directed letter. If, however, instead of being taken back to the Post Office to be dealt with as a registered letter, it is dropped into the letter box as an ordinary letter (the word "registered" not having been erased, or having been erased in pencil only), it becomes liable to the same treatment as any other letter marked "registered" and found in the letter box, and is surcharged with a registration fee of eightpence minus the value of of any stamps already affixed for the registration.

During the time the office is open on Sunday (viz., from 9 to 10 in the morning) the public are allowed to prepay foreign and colonial letters, to purchase postage stamps, and to have letters registered; and all other duties are performed as usual, except Money Order, Savings Bank, Insurance, and Annuity business, which, on that day, is wholly suspended.

At no provincial town in England or Ireland is there more than one delivery on the Sunday, Christmas day, or Good Friday; nor in Scotland, on Sunday or the Sacramental Fast Days; and any person is at liberty to prevent even this, so far as relates to himself, as he can have his letters, &c., retained in the Post Office on Sunday by addressing to the Postmaster a written request, duly signed to that effect.

No Postmaster is bound to give change, or is authorized to de-

* "Late Letters" are such as are posted after the ordinary time, and which cannot be sent forward by the mail then in preparation, unless extra payment be made.

mand change; and when money is paid at a Post Office, whether as change or otherwise, no question as to its right amount, goodness, or weight can be entertained after it has been removed from the counter.

Except as regards Foreign and Colonial letters about to be prepaid in money, a Postmaster is not bound to weigh any letters or other packets for the public; though he *may* do so if his duty be not thereby impeded.

Except so far as this rule is modified in favour of samples (see Rule 9, page 60) Postmasters are instructed not to receive any letter, &c., which there is good reason to believe contains anything likely to injure the contents of the mail bag or the person of any officer of the Post Office. If such a packet be posted without the Postmaster's knowledge, or if at any time before its despatch he should discover any such packet, he is directed not to forward it, but to report the case with the address of the packet to the Secretary. The following are examples of the articles referred to:

A glass bottle, or glass in any form; razors, scissors, needles, knives, forks, or other sharp instruments; leeches, game, fish, meat, fruit, or vegetables; bladders or other vessels containing liquids; gunpowder, lucifer matches, or anything which is explosive or liable to sudden combustion.

When the reason for the non-delivery of a letter, &c. is that the person to whom it is addressed is deceased, the letter is sent, as soon as practicable, to the Returned Letter Office, as are all letters intended for ships which have sailed before the arrival of such letters at the port of departure. When an inland letter is refused, it is retained by the Provincial Postmaster for one day only before being sent to the Returned Letter Office, unless the refusal be conditional, in which case the letter is kept for three days, as are all colonial and foreign letters when refused, and letters, whether inland or foreign, addressed to persons not known, or gone away. When a letter addressed to a Post Office is not called for, it is retained by the Postmaster one month; except in the case of letters at seaports addressed to persons on board ships expected to arrive at such ports, which letters are kept three months. London District letters and letters from the country addressed to London and its neighbourhood, for persons deceased or gone away, or which have been refused, are sent to the Returned Letter Office on the day after the attempt to deliver them. All town and provincial letters which contain the name and address of the senders are returned to them the same day they reach the Returned Letter Office. Colonial and Foreign letters are, with a few exceptions, returned in periods varying from one week to two months.

Every letter which is opened at the Returned Letter Office and found to contain the name and address of the sender is sent back to him; and, even when a letter does not contain this address, yet if it encloses money or other articles of value, it is preserved; but, in other cases, the letter is destroyed.

PRINCIPAL RULES OF THE POST OFFICE SAVINGS BANK.

Post Office Savings Banks are established at all Money Order Offices in the United Kingdom, and are open for the receipt and payment of money daily during the hours appointed for Money Order business.

At these Banks deposits of One Shilling, or any number of Shillings will be received; but no one may deposit more than £30 in one year, or more than £150 in the whole, exclusive of interest.

Interest at the rate of £2 10s per cent. per annum (which is at the rate of Sixpence in the Pound for each year, or at the rate of One Halfpenny on each complete Pound for each month, reckoning from the first day of the Calendar month next following the day on which a complete Pound has been deposited, up to the last day of the Calendar month preceding the day on which the money is withdrawn) is allowed until the Sum due to a Depositor amounts to £200, when interest ceases to be allowed. The interest due to each Depositor is added to the principal due to him on the 31st December in each year.

Every deposit in a Post Office Savings Bank must be immediately entered by the Postmaster, or other person receiving it, in a book, which book is to be kept by the Depositor, and the Postmaster or other person receiving the deposit should affix his signature and the stamp of his office to each entry. Depositors should carefully examine their books before leaving the offices at which they make their deposits, and ascertain that they have obtained correct receipts for the sums deposited by them.

In addition to the receipts which the Depositors will thus obtain in their deposit books, they will receive for each deposit an acknowledgment by post from the Savings Bank Department in London. This acknowledgment should reach the Depositor within three days from the day on which he makes his deposit, if the deposit be made in England or Wales. If the deposit be made in Ireland or Scotland, the acknowledgment should reach the Depositor within five days. The acknowledgment should be quite free from erasure, and should state the exact amount of the deposit, and the day on which the deposit was made. If the acknowledgment does not reach the Depositor in proper time, or if, when it reaches him, it shows any signs of erasure, or does not agree with the entry in the Depositor's book, the Depositor should immediately apply to the Postmaster-General by letter, and should renew his application again and again until he obtains a satisfactory reply.

Once in each year, on the anniversary of the day on which the first deposit was made by him, the Depositor should forward his deposit book to the Controller of the Post Office Savings Bank Department in London, in order that it may be compared with the books of that Department, and in order that the interest due to the previous 31st December may be inserted in it.

When a Depositor wishes to withdraw the whole or any part of the sum due to him, he must make application for the same to the Postmaster-General on a printed form called a Notice of Withdrawal, which he can obtain at any Post Office Savings Bank. When he

has properly filled up this form, he must fold it and secure it, and forward it by post as if it were an ordinary letter. In return for it he will receive, probably by return of post, a warrant for the amount required by him, payable at the Post Office Bank named by him in the Notice of Withdrawal.

A Depositor in any Post Office Savings Bank may add to his deposits at that or any other Post Office Savings Bank, and may withdraw the whole or any part of them from that or any other Post Office Savings Bank, without change of deposit book. For instance, if he makes his first deposit at the Post Office Bank at Huddersfield, he may make further deposits at, or withdraw his money from the Post Office Bank at Huddersfield, or Leeds, Manchester, Birmingham, Edinburgh, Dublin, or any other place which may be convenient to him.

No charge will be made to Depositors for the books first supplied to them, or for the renewal of those books; but if any Depositor shall lose his book, and shall desire a new book, he must make application to the Postmaster-General for the same, and must enclose in his application Postage Stamps to the value of 1s to pay for the new book. If a Depositor loses his book, he should immediately give notice of the loss to the Postmaster-General.

No charge for Postage will be made on the Depositor for any letter passing between him and the Savings Bank Department with regard to his deposits, or with regard to the withdrawal of the same, or for the transmission of his deposit book between him and the Savings Bank Department.

The Postmasters and other Officers of the Postmaster-General employed in the receipt or payment of deposits, are strictly forbidden to disclose the name of any Depositor, or the amount of his deposits, except to the Postmaster-General, or to such of his Officers as are appointed to assist in carrying on the business of the Post Office Banks.

A full statement of the Regulations of the Post Office Banks may be seen in the "British Postal Guide," and at any Post Office Bank; where also information may be obtained with regard to the Rules affecting—The deposits made by Trustees on behalf of another person; the deposits of Minors; the deposits of Married Women; the deposits of Friendly or Charitable or Provident Societies or Penny Banks; the repayment of the deposits of deceased Depositors to their representatives; the repayment of the deposits of Depositors who have become insane, or who are, from other causes, unable to act for themselves.

GOVERNMENT LIFE INSURANCE AND ANNUITY OFFICE.

The Postmaster-General is empowered, under the Act 27 and 28 Victoria, cap. 43, to insure the lives of persons of either sex, between the ages of 16 and 60, for not less than £20 or more than £100. He is also empowered under the same Act to grant Immediate or Deferred Annuities of not more than £50 on the lives of persons of either sex, and of the age of 10 years and upwards. The persons whose lives are insured, or to whom Annuities are granted, by the Postmaster-General, have direct Government security for the payment of the money at the proper time.

The Premiums to be charged for the insurance of lives vary with

the ages of the persons whose lives are to be insured, and with the mode in which they are to be paid.

Tables of the Premiums to be charged for the insurance of lives ; for the grant of Immediate Annuities ; for the grant of Deferred Annuities or Deferred Monthly Allowances, without return of purchase money ; and for the grant of Deferred Annuities or Deferred Monthly Allowances, with return of purchase money,—have been printed, and may be seen at any Post Office which has been opened for the receipt of proposals.

JOHN AUSTEN,

SPECTACLE, FOLDER, & EYE-GLASS MAKER,

XV. NETHERGATE (NORTH SIDE), DUNDEE,

(CLOSE BY THE WEST END OF THE OLD ENGLISH CHAPEL,)

EMBRACES this opportunity of thanking his numerous Friends and the Public for the considerable patronage he has for many years received; and, in thus soliciting a continuance of their favours, begs to say that he continues to fit all ages and variety of sights with SPECTACLES, FOLDERS, EYE-GLASSES, and READERS, so as to meet the various defects of Vision. Eyes of the best quality from BRAZILIAN PEBBLES or GLASS, *accurately ground and carefully tested*, so as to secure not only distinct Vision to the wearer, but preservation of the sight, so often injured by the use of inferior or ill-selected Glasses.

Also Spectacles with Coloured Eyes, which, by neutralising the heating and irritating tendency of all Artificial Light, are favourable to Weak Sight, and to those who Write, Sew, or otherwise use their Eyes much at night.

N.B.—All kinds of SPECTACLES Repaired, or fitted with New Eyes, carefully adapted to the focus of the wearer.

THIS COMPANY was the first of its kind established in Dundee, and has given proof, by its success, that such a means of advancing the social well-being of the industrious classes has been duly appreciated.

The attention of parties wishing to *save money* is especially solicited to the following Tables, which are favourably adapted for every condition in life.

Table showing the period within which the Share of £25 is to be realised:—

Years.	Fortnightly Payments in advance.	Quarterly Payments in advance.	Half-Yearly Payments in advance.	Yearly Payments in advance.

THOUGHTS FOR THOSE WHO THINK.

H O M Œ O P A T H Y.

HOMŒOPATHY IS NO LONGER NEW. The principle was discovered by Samuel Hahnemann, in 1790, and its scientific application commenced immediately thereafter. Since 1810, when Hahnemann published his *Materia Medica*, and especially since 1830, when the successful treatment of cholera by Homœopathy directed all eyes to it in Europe, it has extended with wonderful rapidity.

A brief quarter of a century—less than half a life-time—has passed, and what a change! Homœopathy is now a recognised method of medical practice. It has its Literature, its Colleges, Societies, Hospitals and Dispensaries. It has its thousands of practitioners, second to none for their respectability, learning, skill or success. It has its millions of supporters, and chiefly among the elite, the learned, the thoughtful, and the more refined and intelligent portions of society. Homœopathy now comes no longer in the attitude of a mendicant soliciting examination or sufferance, but in the attitude of a conqueror, challenging applause. She presents an array of facts and figures, proof and argument, tables and statistics, so vast and overwhelming that none can dispute or gainsay them; yet all this has been accomplished by virtue alone of the inherent vitality and energy of the system, in curing the sick, relieving the suffering, and thus preserving and prolonging human life.

THE OBJECTIONS that are urged against *Homœopathy* or the use of the Homœopathic specifics, never came from those who are acquainted with or employ the system. This is significant, and shows that the objections arise from ignorance or prejudice. Whoever tests Homœopathy fairly, becomes convinced; whoever makes a fair trial becomes a convert. There is nothing in its doctrines themselves to secure converts, and all the world were once aliens or opponents. Every single convert or apologist has become so from the evidence of the curative powers of the system upon the sick, as witnessed by themselves. Having seen, they believe. Because they know, they testify.

HUMPHREY'S SPECIFIC HOMŒOPATHIC REMEDIES for the People.

They possess these positive advantages: They are harmless; no injury can arise from their use. They are simple: you always know what to take, and how to take it. They are convenient: you can give the proper Sugar Pills at a moment's warning, without hesitation or delay. They are efficient: in thousands of cases disease is arrested at once, and the system freed without prostration or delay.

The Remedies are Sold at 1s 1½d, 2s 9d, 4s 6d, 11s,
 and in Cases of various sizes.

Office—27 BANK STREET.

THIS SOCIETY was the FIRST PERMANENT SOCIETY
established in Forfarshire.

No fines of any description are exacted, and the business is conducted on the strictest mercantile principles.

Money is advanced on all descriptions of Heritable Property for any term of years that may be agreed on, repayable by Instalments

regulated by the period of the advance, according to the following Table:—

Period of Loan.	Yearly, payable one year after date of advance.	Half-Yearly.	Quarterly.	Fortnightly.

The Investing branch of the business is subdivided into two branches—Shares, and Deposit Money.

Money is received on Deposit, on such terms, and at such rate of Interest, as may be agreed on.

Investing Shares can be always had at the Society's Office.

Persons wishing to save money may become the owners of Investing Shares by making the payments provided by any part of the following Table:—

		PAYMENTS TO ACCUMULATE TO £25 AT 5 PER CENT.			
		Fortnightly.	Quarterly.	Half-Yearly.	Yearly.

The Wheeler & Wilson

HELP FOR WOMEN.

OUR sisters, and wives, and daughters, have, where the Family is large, and a good stock of clothes is required, and the family exchequer is limited, a terrible amount of drudgery to endure. They have no time for reading, for attending lectures, for self-improvement. Very often they are denied the ordinary intercourse of society; oftentimes many a mother in the middle ranks of life is little better than a slave. With the invention of the WHEELER & WILSON Machine, women are set free, free from the slavery of the gusset and band, free for the higher modes of life, and for the nobler purposes of creation.

O ! men who think they're dear,
And buy them not for your wives,
O, have no fear of their wearing out,
They will last them all their lives !

Return Tickets granted on Moderate Terms to or from any one Port.

These Tickets entitle Passengers to break the journey at any Port or Ports, proceeding by the succeeding Steamers of the Company till they reach their destination, and are available to return within Six Months from date of issue.

Liberal terms will be allowed to Tourist Parties numbering Four and upwards.

The Round Voyage by these Steamers, usually occupying about Seven Weeks, presents a Route of unequalled interest—Lisbon, Gibraltar, Genoa, Leghorn, Pisa, Florence, Rome, Naples, Sicily, Venice, and Trieste, being all embraced within the circle of their sailings; and Passengers from Scotland visting the Holy Land will find this Route, *via* Egypt, to be the cheapest and most expeditious.

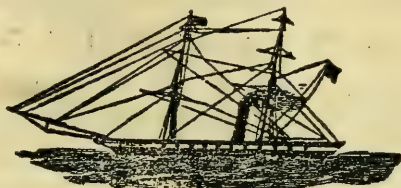

The Cabin accommodation by all the Steamers is of the most comfortable description; and as the Fares are moderate, the attention of Tourists and Travellers is specially directed to the Steamers of this Line.

For Freight or Passage apply to HENDERSON BROTHERS, Liverpool; HENDERSON BROTHERS, Dundee; or to

# WILLCOX & GIBBS' Unequalled Noiseless Family Sewing Machine.

No. 1.

Will do all kinds of Domestic Work—In short it is the most Perfect and the Cheapest Family Sewing Machine in the World.

No. 1—On Ornamental Iron Stand, Walnut Top, Drawer, and Lock... £8 0 0  
 No. 2—On Ornamental Iron Stand, Polished Top, Drawer and Lock... 8 10 0  
 No. 3—Half Case, Walnut or Mahogany, Polished, Drawers complete... 10 0 0

No. 4—Full Cabinet Case, Mahogany or Black Walnut (neat style)... £14 0 0  
 No. 5—Full Cabinet Case, Mahogany or Black Walnut (extra)... 15 0 0  
 No. 6—Full Cabinet Case, Rosewood (carved) or splendid Walnut... 17 0 0

Either of the above, with Hemmer and Feller, £1 extra.

\*\*\* Directions, spare needles, and the necessary Tools, accompany each Machine.

"For family sewing in all its varieties, the work of this simple Machine is found perfectly strong and reliable; its hemming is done on the right side, to any width, and is neat and accurate beyond comparison. Felling, also, is readily performed by it, and we cannot see any requisite for family purposes which it cannot be made to meet more readily than any Sewing Machine in use. It is simple and easy to work, cannot be run in the wrong direction, nor is there the slightest difficulty in changing the needle; it is not liable to get out of order, and combines cheapness with its other merits."

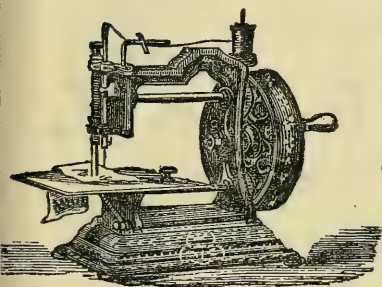

Illustrated Price Lists, containing full detailed particulars and Testimonials, giving the experience of those who have thoroughly tested them in comparison with others, gratis, and post free.

# NEWTON WILSON & CO.'S HAND SEWING MACHINES.

"QUEEN MAB."

"Queen Mab" (New Pattern), £3 3s.  
Twisted Loop-Stitch.

"CLEOPATRA."

"Cleopatra,".....£4 4s.  
Twisted Loop-Stitch.

**T**HERE are three distinct stitches produced by the sewing machine. First, the single thread. If this is made with a reciprocating looper, as in the very cheap machines, it is simply the ordinary tambour stitch; if made with a rotary looper, as in the Wilcox & Gibbs, or our Queen Mab and Cleopatra the loop is twisted, and it is as firm as any other stitch. Secondly, the double thread made from two reels, and called variously the elastic or knotted stitch. It is the strongest and most elastic stitch that is made, but like the first named, is not the same on both sides. Thirdly, the double thread when made with a shuttle or rotating hook, and which is known as the lock-stitch. The under cotton in all machines of this kind requires to be rewound, but the work, when well done, appears the same on both sides.

The advantage of the first stitch is in simplicity of construction and ease of management; of the second, elasticity and application to embroidering purposes; and of the third, in having the stitch alike on both sides. Manufacturing all the three stitches, unlike any other house, we can have no possible interest in any misrepresentation whatever, while the variety we produce presents an unequalled facility of selection.

The hand machines have only been introduced within the last two years. The want of something portable has long been felt, and medical men have frequently and properly interposed objections to the use of the treadle in the case of delicate constitutions. Our hand machines meet the difficulty, and supply the want. They are perfectly portable, require no fixing, are easily managed, are constructed with the same mechanical perfection obtained in our expensive machines, and are supplied at prices bringing them within the range of almost every family. There are numerous and important patented arrangements in connection with them; a moment's comparison will show their immense superiority, in speed, quietness, and excellence of workmanship, over all others.

# COMFORT.

**H**OW people move about to find Comfort, spending large sums of money in so doing, while in other small matters equally essential to Comfort they show a degree of stinginess not at all in keeping with their professions! For example, many purchase very low-priced inferior Boots, and, instead of having Comfort, the first wet day that comes they are tormented with having their feet, as it were, in a wet pack, leading one to suppose that they had been paying a visit to some Hydropathic establishment, and had been recommended by their physician to wear water bandages. To procure Comfort it is essential that you get Boots that will withstand the wet. In fact, to procure thorough immunity from all annoyance in this respect, you must purchase your Boots at

**T**HE SOCIETY offers such a safe and profitable means of accumulating a sum of money year by year as cannot be obtained in any other way. Members may join at any time. The Shares are £25 each, and are paid by fortnightly instalments of One Shilling per Share, or in larger sums if desired. All the Funds are lent on good Heritable securities.

The Society will receive Loans or Deposits of £5 and upwards (repayable on one month's notice) at such rates of interest as may be agreed on; payable half-yearly. Lenders have the security of the Society's Funds in addition to the heritable securities held by the Society, and have thus a better security than ordinary lenders on Property.

Advances are made by the Society to enable Members to build or purchase Dwelling-Houses, or other Heritable Property. The repayments necessary to clear off the loan and interest would not much exceed the rent. Bonds to, and Discharges by, the Society are exempt from Stamp Duty.

The Manager, the Surveyor, or the Solicitor, will at all times give information as to the nature and working of the Society.

The Great Britain Mutual Life Assurance Society—(Continued).

## SPECIAL ADVANTAGES TO ASSURERS.

**T**HE Entire Profits divided amongst the holders of Participating Policies.

The Profits applied first in extinguishing the Premiums *at a given date*, and afterwards in making the Policy *payable during life*; this important advantage being secured without the payment of any additional Premium.

It is scarcely necessary to point out that a Policy, the Premiums upon which cease after a given number of Payments, increases in value much more rapidly than an ordinary Life Assurance, and also affords a more complete security in the event of the Assured requiring a temporary advance from a Banker, or private friend.

The adoption of this plan—peculiar to the GREAT BRITAIN SOCIETY—removes the only two objections which have been urged against the system of Assurances payable during life, *viz.*, the high rate of Premium, and the possibility that through an unfavourable change in his circumstances the Policy-holder may be unable to continue his payments until the Sum Assured becomes due.

No claim can be litigated or disputed, except with the consent of the Members present at a General Meeting, to be specially convened for the occasion.

According to the Half-credit system, one-half of the first Five Annual Premiums may remain as a charge upon the Policy—the Half Premiums for which credit is given being (on participating Policies) gradually liquidated out of the Profits.

ANDREW FRANCIS, *Secretary*.

**T**HE extraordinary rapid progress of the Company attests the estimation in which it is held by the public, and the large amount of new business transacted is the best evidence of the popularity of its principles, and its adaptability to meet the requirements of Assurers; it comprises all substantial improvements, and comprehends every description of Life Assurance.

## EXTRACTS OF THE PRESS.

**INSURANCE RECORD**, of April 9th 1869.—“As a General Life Office it has a large business, and holds a high place amongst kindred institutions, and as an Industrial Office it stands unrivalled.”

**BULLIONIST**, April 10th 1869.—“The Prudential Assurance Company presents one of the most remarkable cases of rapid progress in business we have ever met with. We can only attribute such results to a conviction that the Prudential is truly what its name implies.”

**FIFESHIRE ADVERTISER**, April 10th 1869.—“As one of the largest Assurance Companies in Europe, ‘The Prudential’ is also one of the best.”

*The following are among the distinctive features of the Company:—*  
It affords all the advantages of a Mutual Office, with the Security of a Proprietary Capital.  
Credit System. One-half of the Annual Premium only payable during the first seven years.

(See next Page.)

**PRUDENTIAL ASSURANCE COMPANY—(Continued).****ABSOLUTE SECURITY POLICIES, UNFORFEITABLE,  
UNCONDITIONAL, AND UNCHALLENGEABLE.**

**T**HE Directors of this Company, in deference to an objection not frequently urged by persons invited to assure, that the ordinary mode of Life Assurance is in their opinion defective or uncertain, by reason of the operation of the customary conditions, have resolved to promulgate the present Tables, and to issue Assurances under them which shall be absolutely Unforfeitable, Unconditional, and Unchallengeable.

For the reason referred to, many persons hesitate or decline to assure on the ground that, in the event of inability or unwillingness to continue payment of their premiums, the Assurance will become forfeited. To this class of the public the system now introduced will especially commend itself, being entirely free from all conditions of forfeiture on account of non-payment of premium, or from any other cause whatever; while at the same time it absolutely guarantees at decease, when even a default is made in payment of the premium, a fixed sum in respect of every premium paid, bearing the same proportion to the total amount assured as the number of premiums actually paid may bear to the whole number originally contracted to be paid.

Besides this important advantage, every policy will expressly state what sum can at any time be withdrawn on the discontinuance of the Assurance.

The assured will thus always have the option of retaining either an ascertained fixed sum payable at decease, or, in case of need, of withdrawing a certain amount, according to the duration of the Policy, such amounts being set forth on every Policy, and rendering unnecessary any future reference to the Company on these points, as is the case with ordinary Assurances.

Creditors assuring the lives of debtors will appreciate this feature as one greatly protective of their interests, and it will likewise commend itself to bankers, capitalists, and others who are in the habit of making advances collaterally secured by Life Policies; as they can at any time learn, by mere inspection, the exact value, either immediate or reversionary, of a Policy of this description.

Every Policy issued on this plan will be without any conditions as to voyaging, foreign residence, or other usual limitations. By this freedom from restriction of all kinds the objections being referred to will be entirely removed, and the Policies will become at once positively valuable as actual securities.

In addition to the foregoing statement of advantages, the number of premiums is strictly defined. The longest term provided for is twenty-five years, and the shortest five years, as shown by the Tables. Thus bankers, creditors, and others holding Policies of this class as security, may always know the utmost amount they may be called upon to advance so as to maintain the full benefit of the Assurances—a matter of great importance where Policies are held as collateral security.

It is only necessary to add that, as a consequence of the Policies under these Tables being unforfeitable and unconditional, they will also be unchallengeable on any ground whatever. They may therefore be aptly termed Absolute Security Policies.

The PRUDENTIAL ASSURANCE COMPANY possesses an income of £220,000 a year. Its position is unquestionable, and it obtains the largest amount of new business of any office in the kingdom.

Capital and Accumulated Fund of about ONE MILLION AND A HALF STERLING. Annual Revenue nearly £200,000 from the Life Branch alone. Four-fifths of the Profits appropriated to all Policies of £100, and upwards, every Fifth year, and without responsibility of partnership. Amount paid for Life Claims since the Office was established, about £3,750,000. Bonuses may be added to the sum insured—or present value in cash may be received—or an equivalent reduction of the future Annual Premium obtained—at the option of the Assured. Assurances at lower rates of Premium, without participation;

LOANS granted by the Company on Life Policies, on approved personal security, and Advances also made on the security of Policies of adequate value.

VOLUNTEER CORPS.—Insured are at liberty to serve in any Volunteers Corps, within the United Kingdom, without prejudice.

DAYS OF GRACE.—By the condition of the Company's Policies, invariably acted upon for upwards of Fifty Years, the period for Payment of Premiums is not only extended to the "days of grace," without forfeiture of the Policies, but the sums assured are recoverable, the same as if the claim had arisen at any time previously. No charge for Policy Stamps or Medical Fees.

Agents will be happy to supply Life Proposal Sheets with full Tables of Rates.

## FIRE DEPARTMENT.

Insurances effected on Property in any part of the United Kingdom, at the ordinary rates. Manufactories, and all Risks of a similar nature, insured by special agreement, on the most favourable terms. Losses by explosion of gas and by lightning are made good. Steam Thrashing Machines allowed on Farms without extra charge. Policies transferred from other Offices without expense. Claims settled promptly and with liberality.

On receipt of FIRE orders, Interim Receipts will be immediately issued, and when desired a surveyor will be sent to inspect, and assist in specifying the risk.

As the entire abolition of Duty is in effect equivalent to a reduction by about one-half of the hitherto annual expense of Fire Insurance on ordinary risks, a large increase of the sums presently insured is generally being made.

## THE BRITON

### MEDICAL AND GENERAL LIFE ASSOCIATION

Originated, and has most successfully carried out, a peculiar feature (now known as the BRITON feature), whereby, without the payment of any additional Premium, the Policies become payable to the Assured during his own lifetime, or in the event of his early death, to his family or other representatives. The Assured thus not only protects his family, but secures to himself in advanced age, relief from the payment of future Premiums, and the receipt of the sum assured, which may then be conveniently applied in purchasing a considerable Annuity on his own life, or for any other purposes.

A BRITON Policy costs no more than by the old plan, the Tables of the Association having been framed upon data which bring out similar premiums to those of other respectable Associations: yet, though the charge is no more, the BRITON enables the Assured to obtain the advantages other Assurance Companies offer, with the valuable addition of a provision to himself in advanced life.

This is accomplished by an equitable manner of allocating the Bonus. Instead of increasing the amount Assured, the Bonuses are applied to the extinction of the latter premiums. The larger the Bonuses, the earlier will the amount of the Policy become payable.

E. F., aged 29, assured his life in the Association for £500. He pays an Annual Premium of £12, 4s. 2d., and at the division of profits, in 1862, his Policy was declared to be payable to himself, should he be alive, at 72½. At the last division (1867,) this age was reduced to 69½, and at every periodic division, the age for receiving the sum will be made earlier, until the Assured arrives at that age when the whole Policy sum will be handed to him, and he will cease to pay any further Premiums.

As a further illustration, G. H., a policy-holder, aged 33 at entry, had a guarantee given him in the year 1862 for the payment of his Policy in 36½ years. He now has a similar guarantee given him for its payment in 28½ years, or sooner in case of death, and subject to further reductions hereafter.

### VALUE OF THE MUTUAL SYSTEM.

Had the Society been a Proprietary Company, dividing a portion of its Profits among its Shareholders, its Financial Condition would have placed it in the first rank of Bonus yielding Companies; but as the whole Profits are divided among its Policyholders alone, their prospects of future Bonuses, if equalled, are certainly not surpassed by those of any other Institution. The great advantage of the Mutual System is very simply shewn by the following illustration taken from the Society's own figures, solely with the view of conveying a definite idea of the Money Value of the Society's Mutual System to its own Policyholders. The Profit realized during last seven years amounted to £834,183, 10s. 1d. Now, had the Society been a Proprietary Company, from a tenth to a third—more probably a fifth—of this large sum would have been paid away to Shareholders. Under the Proprietary System, therefore, the following would have been the Loss to the Society's Policyholders:—

|                                                                   |         |
|-------------------------------------------------------------------|---------|
| Allowing one-tenth of the Profits to }<br>Shareholders, . . . . . | £83,418 |
| Allowing one-fifth (the most usual proportion), -                 | 166,836 |
| Allowing one-fourth - - - - -                                     | 208,546 |
| Allowing one-third, - - - - -                                     | 278,061 |

*Such being the amounts saved by the Mutual System during the comparatively short period of seven years, it is evident that during an average lifetime THE SAVING TO POLICYHOLDERS MUST AMOUNT TO AN ENORMOUS SUM.*

### BONUSES PAYABLE.

The practice of limiting information as to Bonuses, to a few selected Examples of large additions, declared under exceptional circumstances, either on Policies of extraordinary duration, or in cases where the Lives Assured have attained the extreme verge of human life, so far from affording any generally useful information, is much more likely to lead to serious misunderstanding on the part of ordinary readers. This practice the Society has always avoided. The following statement shews the Bonuses actually paid during the year 1868, the Policies having been effected at all ages, and having attained all durations:—

|                                                                       |               |
|-----------------------------------------------------------------------|---------------|
| Claims Paid under Bonus Policies during the year }<br>1868, - - - - - | £382,362 7 11 |
| While the Original Sums Assured amounted to                           | 269,948 18 0  |

|                                                                  |               |
|------------------------------------------------------------------|---------------|
| The Bonuses Paid in a Single Year being }<br>therefore - - - - - | £112,413 9 11 |
|------------------------------------------------------------------|---------------|

*On many of these Policies the Bonuses approached, and in some instances largely exceeded, the Original Sums Assured; but it will be seen that the Average Bonus paid was (£269,948, 18s 0d; £112,413, 9s 11d; £100, 0s 0d; £41, 12s 10d); £41, 12s 10d per cent.*

Prospectuses, Forms of Proposal, and all necessary information may be obtained, free of charge.
